non-toxic

## 1<sup>st</sup> Choice in Hard Surface Cleaning

**CLEAN1™ Hard Surface Cleaner is a positive new choice for professional grade results, with the convenience and safety required for consumer use.**

U.S. Government facilities across all agencies served by the General Service Administration include a vast array of hard surfaces that need

cleaning, indoors and out. Effective "All Purpose" hard surface cleaning is most valuable when it's safe and easy to do and delivers reliable results.

CLEAN1 hard surface cleaning uses are as diverse as the services provided by the government agencies themselves. CLEAN1 is an "All Purpose" concept for hard surfaces in a pre-diluted 750 mL (25 oz) spray or larger sizes of higher concentration. CLEAN1 is sufficiently low foaming to

be used in pressure washing systems. Suitable for automated cleaning equipment or manual use. Made in USA.

Does Not Contain

Phosphates

Nitrates

Enzymes

Chlorine
